Product Information

Overview

Originally released March 2016

Unlocked, SIM-free, Model A1662

4-inch Retina display with IPS technology

A9 chip with embedded M9 motion coprocessor

Built-in 1960 mAh battery

Touch ID

Apple Pay

12MP camera and 4K video

What's in the Box

iPhone SE

EarPods with 3.5 mm Headphone Plug

Lightning to USB Cable

USB Power Adapter

Documentation

System Requirements

Apple ID (required for some features)

Internet access*

Syncing with iTunes on a Mac or PC requires:

Mac OS X 10.10.5 or later

PC: Windows 7 or later

*Some features require an Apple ID and may require payment. Internet access may require payment. Additional terms apply.

Environmental Requirements

Operating ambient temperature: 32° to 95° F (0° to 35° C); operating relative humidity: 5% to 95% noncondensing; storage temperature: -4° to 113° F (-20° to 45° C)

iPhone SE is designed with the following environmental management systems in mind:

Arsenic-free display glass

Mercury-free display and backlight

Brominated flame retardant–free PVC-free

Beryllium-free

Recyclable aluminum enclosure

Features

Design. A beloved design. Now with room to breathe.

iPhone SE features a strong and durable 4-inch design with a color-infused front. Crafted from tough Diamond Shield glass and aerospace-grade aluminum, it's surprisingly lightweight and designed to fit comfortably in your hand. Inside, the Touch ID sensor is ready to recognize your fingerprint in a single press, so you can unlock your phone and authorize purchases with unparalleled ease and security.

Performance. Power in your pocket.

iPhone SE is powered by the A9 chip, the same advanced chip that's in iPhone 6s. It includes a 64-bit architecture and the M9 motion coprocessor. Together they power the Retina Flash feature for the best selfies in any light, and they make the 12-megapixel camera on the back of iPhone SE faster and smarter than ever.

iCloud Photo Library. All your photos and videos, always and everywhere.

iCloud Photo Library stores every photo and video you take, and lets you get to-date on all your devices. So the photos you take on your iPhone SE are automatically available on your Mac, iPad, iPod touch, and iCloud.com.

Touch ID. Advanced security. Right at your fingertip.

Touch ID makes unlocking your iPhone SE and authorizing purchases faster and more convenient than ever before. Just rest your finger on the Home button to open your iPhone SE or make purchases from the iTunes Store, App Store, and iBooks Store. Your fingerprint data is encrypted and stored safely in the Secure Enclave inside the A9 chip. It's used only to verify that you want to access your iPhone SE or make purchases.

Apple Pay. Fast, easier, more secure than ever.

Touch ID isn't just for unlocking your iPhone SE. It's also the fastest, most secure way to pay with Apple Pay when you're in a store, in apps, or online. Just hold your iPhone SE near the reader with your finger resting on Touch ID. Your payment information is encrypted and stored safely in the Secure Enclave, and Apple doesn't store your card details on their servers.

Retina Flash. Selfies like you've never seen them.

With an easy-to-use interface, Retina Flash turns the display of iPhone SE into a soft, even flash. It's a mobile operating system and the camera app that's built in. And it's so easy and beautiful, it's your iPhone, as seen through your eyes.

Apps that help you do more throughout the day.

Keyboard

A word (diagram) widescreen LCD display with 1334-by-750-pixel resolution at 326 ppi

1400:1 contrast ratio (typical)

1596 lux (typ) dual-domain ips in-cell display

800:1 contrast ratio (typical)

Full sRGB standard

500 cd/m2 max brightness (typical)

Fingerprint-resistant oleophobic coating

Support for display of multiple languages and characters simultaneously
